BELLEVUE BAPTIST CHURCH

Pastor: Rev. Fred Bennett

Sunday school 10 a.m.
Morning worship 11 a.m.
Evening service 7.30 p.m.
Midweek meeting:
Wednesday 7.30 p.m.
A cordial welcome awaits you.

How can people expect the future to have something in store for them if they have nothing in store for the future?

The preliminary figures released by the Dominion Bureau of Statistics of the quinquennial census gives Blairmore an increase in population from 1,731 in 1941 to 1,756. The population of Coleman fell from 1,870 to 1,778.

IN MEMORIAM

JOHNSTON (nee Barrell)—In Loving Memory of dear Lilla, who left us September 27, 1944.

To know she never said good bye, Will always bring regret.
But the hearts that always loved her Are the ones that don't forget.
Lovingly remembered by Mum, Dolly and family and Wilfred and family.

JOHNSTON—In Loving Memory of our dear Mum, who left us September 27, 1944.

Oh Love that would not let me go, I rest my weary soul on thee.
Lovingly remembered by Doris, Roy and baby Gayle.

JOHNSTON—In Loving Memory of Lilla, who passed away September 27, 1944.

In our home she is fondly remembered.
Sweet memories cling to her name.
Those who loved her in life sincerely,
Still love her in death just the same.
Ever remembered by Bill and Joan.

UNVEIL CAIRN TO H.M.C.S. BLAIRMORE

The inclement weather of yesterday did not prevent carrying out the proposed ceremony of unveiling the cairn erected to commemorate H.M.C.S. Blairmore. Rain stopped shortly before the scheduled time, 6 p.m., and a number of citizens arrived, but most of whom remained in their cars to witness the ceremony.

The cairn is erected on main street, fringing the park and east of the bandstand, with a flag pole immediately behind and in the park.

Introduced by R. C. Old, of the committee, Lieut. H. S. Square, commanding officer of H.M.C.S. Tecumseh at Calgary, gave the citizens an outline of our ship, unveiled the cairn which is surmounted by the "Blairmore" ship's bell, and with the bronze plaque on the face of the cairn. He also presented to Mayor E. Williams the framed memento relating to the "Blairmore" to adorn the council chamber walls.

The "Blairmore," a Bangor minesweeper, was built by Port Arthur Shipbuilding and launched on May 14, 1942, being commissioned on Nov. 1 of the same year. During her first year at sea she escorted more than 1,200 ships in convoy without loss or damage to a single ship and steamed 3,000 miles a month, mostly on coast escort duty. D-Day, June 6, 1944, saw the "Blairmore" taking part in the invasion of the coast of Normandy. The ship finally returned to Canada and shortly after her arrival at Sydney, N.S., proceeded to Shelburne, N.S., where she was paid off on Oct. 16th, 1945.

Throughout her fighting career, "Blairmore" had on display in two warrooms an aerial photograph of Blairmore, Alberta after which the ship was named and whose people adopted the minesweeper... the citizens raised money to provide the ship with comforts and luxuries... the value of their gift the first year amounted to more than \$1000 in cash, making the minesweeper the best cared for in the service. Personnel on board ship were kept acquainted with the life of their namesake Alberta town through the columns of The Blairmore Enterprise (now The Graphic) weekly newspaper, which arrived with the mails.

In accepting the memento, Mayor Williams—on behalf of the citizens thanked Lieut. Square for coming to Blairmore to unveil the cairn and make the presentation.

Throughout the ceremony a guard of honor of six local ex-members of the Royal Canadian Navy flanked the cairn, three on each side.

COMMANDING OFFICER VISITS BLAIRMORE

On Monday Major General F. F. Worthington, CB, MC, MM, general officer commanding Western Command, visited the Pass in the interest of the 22nd Armoured Brigade Workshop.

At 8 p.m. members of the civilian committee from all Pass towns met Gen. Worthington at the National Selective Service office, where he addressed them. He commended the committee in preparing the way for locating the Workshop in the Pass. A site has been secured in West Blairmore and huts are being erected.

Following his visit here Gen. Worthington confirmed his tour that will take him to the Pacific Coast.

A travelling preacher was due to deliver a sermon at a western church. Arriving at the church, he paused to read the sign in front of it, which said: "Subject for this Sunday: Do you know what Hell is? Come and hear our new organist." — Ro-Tava, Ottawa, Kansas.

OFFICIALS VISIT PASS RE HOUSING PROBLEM

Major General H. A. Young, Ottawa, vice-president of Central Mortgage and Housing Corporation, accompanied by Mr. Harris, of Wartime Housing Limited, Lethbridge, visited the Crows' Nest Pass on Monday and addressed a luncheon meeting, sponsored by Coleman town council in the Grand Union hotel. Present were community and industrial leaders from Bellevue to Fernie. Councillor Wilfrid Dutil presided as chairman.

Chairman Dutil stated that Maj. Gen. Young had travelled through the Dominion in his position as vice-president of Central Mortgage and Housing Corporation, a Crown company, to encourage construction of housing units from coast to coast. He was today in the Pass to converse with community and industrial leaders on the housing problem which was most acute in this area.

Major General Young stated that the housing shortage was world wide. He told of the desperate plight of citizens in Dublin, Ireland, who were in need of Canadian lumber with which to build housing units. Between a quarter million to half million housing units were required in Canada immediately, this not taking into consideration the city slums nor those persons who reside two or more families to the one unit.

Marriages during the past year have been averaging about 100,000 per year, which added to the already acute housing shortage. Sixty to eighty thousand units were required to be built during the next few years.

The housing problem he admitted was a sixteen-year old. Housing construction had declined since the late twenties and there had been no housing construction of any consequence during the war years.

Government policy of today was to construct 20,000 units in 1947 and 100,000 in subsequent years, having regard to the needs of industry and Canada's export trade. The Hon. J. L. Halsey, minister of finance, had caused Central Mortgage and Housing company to be formed. It was a Crown company which had no passed from Mr. Halsey's department to that of the Hon. C. D. Howe, minister of reconstruction.

As a result of the BC lumber strike and the present steel strike in eastern Canada, 35,000 housing units which had been scheduled for occupancy in October will not be completed in 1946.

The National Housing Act he broke up into five parts:

1. Joint loans made through private lending institutions, such as insurance and mortgage companies.
2. Direct advances to Limited-Dividend Housing Corporations up to 95% of the lending value of a low rental project.
3. Direct loans by the Corporation to borrowers engaged in the business of mining, lumbering, logging and fishing.
4. Home Extension Loans.
5. Home Improvement Loans.

The speaker stated that it was practically impossible to construct a home today by a private citizen and rent it under \$35 to \$40 per month.

The Wartime Housing would come into an area where the municipality would provide serviced lots at \$1 per lot. They would build the units, maintain and administer them and would pay the taxing body \$24 per year in lieu of taxes plus \$1 for street-light service. At the end of a stipulated period National Housing Limited would sell the unit back to the taxing body for \$1,000.

In concluding his address Major General Young stated he was sympathetic to primary industry and would do everything in his power to help.

A question period followed which brought into discussion many pertinent points as they affected this area from Bellevue to Fernie.

One gentleman from Bellevue stated that this was a low rental area with a \$20 rent as possible the maximum workers wanted to

MUTUAL LEADER HONOURED

F. J. LAMEY.

The Mutual Life of Canada has released its Honour List, recognizing Mr. F. J. Lamey of Blairmore for outstanding service to his community in the Club Year just closed. He has qualified as a member of the Leaders' Century Club.

Qualification for Club membership is based not only on the large volume of protection underwritten, but also on a high personal standard of confidential service to policyholders.

In reply it was stated that Wartime Housing built houses, containing two bedrooms rented for \$22.50 per month and four bedroom units for \$30 per month.

Major General Young stated that the federal government would only subsidize the cost of construction when a second party also stepped in to help the subsidy. In this case he suggested that either the municipality do it alone or have the municipality, the coal company, and the provincial government take it on in a three-way basis.

Mr. Harris entered the discussion and stated that in Lethbridge the city had come forward with the lots at \$1 each. Wartime Housing was presently constructing houses with the following set-up:

Two bedrooms, each measuring 10 feet by 14 feet; living room, 11'x14' with hardwood floor; kitchen 10'x14'; bathroom; utility room; cupboards; all for \$22.50 per month. A 3-bedroom unit rented for \$27.50 and a 4-bedroom unit for \$30. There was no basement in any unit. Should the tenant desire a basement he would then have to pay for it in increased rental charges of possibly \$5 to \$7 per month.

The meeting broke up after about three hours duration and when all present appeared to be satisfied that they had all points pertaining to the housing set-up clear in their minds.

No results are expected until the delegates have had the opportunity of talking the matter over with their councils and directors.—Coleman Journal.

PRINCESS ELIZABETH TO BROADCAST ON SUNDAY

For the first time in history, Princess Elizabeth will directly address the 876,000 members of the Canadian Red Cross, via a trans-Canada broadcast on Sunday next, Sept. 29, 4.30 to 4.45 MST.

As a patron of the Canad a Junior Red Cross, Princess Elizabeth has been closely connected with the work these thousands of students are carrying on all across the Dominion.

The broadcast will be carried by the Canadian Broadcasting Corporation.

It's foolish for short-tempered men to long for peace.

Always wanting to be a big shot makes me just a big noise.

This advertisement recently appeared in The Montgomerian, published at Troy, NC:

"The ladies of the Blasco Methodist church have discarded clothes of all kinds. Call at 41 North Main street and inspect them."

OLD TIMER OF WEST PASSES WEDNESDAY

John Baird, 86, a resident of Blairmore for upwards of 20 years, passed away at the Salvation Army Eventide Home at Gleichen, Alberta, on Wednesday morning, which institution he entered about three years ago.

Mr. Baird had been resident in Pass towns for the past half century and followed coal mining.

The body has been brought to Blairmore and funeral will be held on Sunday afternoon at 2.30 from Crowe Nest Funeral Home with H. L. Culham in charge.

TO RESIDE AT COAST

Mr. and Mrs. D. A. (Gus) Howe will be leaving the early part of the week for the Pacific coast, where they intend to make their future home.

Gus has been a resident of Blairmore for the past 37 years and remaining here of the family are his mother, Mrs. R. Howe, Mrs. J. H. Harmer, and Mrs. A. Decoux.

Mrs. Howe followed her husband to Canada after the First Great War and has been an active worker in the United Church Sunday school and other church work.

For the past five and a half years Gus has been steward at the local branch of the Canadian Legion and this evening the club members are making a presentation to him for faithful service.

Their daughter, Mrs. I. E. Anderson, who has been visiting at home the past two or three weeks, will be accompanying them to the coast, and with whom they will make their home until plant materialize.

Presentation to Mrs. Howe

On Monday evening Sept. 23, members and adherents of the Blairmore United Church met in the auditorium to honor Mrs. D. A. Howe, after a very enjoyable program of vocal and instrumental selections. Mr. Donald MacPherson presented the honored guest with a case of Community Silver, also paying tribute to Mrs. Howe's devotion to the work of the church, being a member of every department and fulfilling her duties ably, particularly among the children of the Sunday school.

Mrs. Howe was also presented with a cup and saucer by Mrs. J. J. Murray on behalf of the Ladies Aid.

BLAIRMORE STUDENTS ENTER UNIVERSITY

With the opening of the academic year at the various universities a number of Blairmore high school students left during recent weeks either to continue their studies or enter upon university training.

The University of Alberta will have quite a Blairmore contingent. Returning to continue the course in engineering will be Miss Hazel Mallett, 2nd year, and who will also be a reader; Rene Diamond, who recently was awarded a \$125 McLean bursary; and Donald Rees (Bellevue). Others taking up engineering are Wilfred Leneucha, Malcolm Blake, Duncan Lartestler, Bob Erikson and Maurice Thorpe. Joe Leneucha will take up medicine; Bob Bannan, Douglas Wilson and Bill Granger, commerce; Albert Catone and Henry Galvan, law.

Attending university at more distant points are Frank Fleming, BA, studying law at Dalhousie; Wing Chin (Hillcrest), engineering; University of Toronto; Henry Brunst, engineering; McGill University; Denis Fleming, theology; St. Joseph's, Edmonton; John Goodford, commerce, University of British Columbia, and Miss Jewel May, journalism, University of Idaho.

In addition John Chamberlain and John Latch have chosen pharmacy and are at present apprenticed to two drug firms in Calgary.

INDIAN SUMMER IN CANADA'S NATIONAL PARKS

"Indian Summer" is a term which has become part of the English language and is freely used through the English-speaking world. Yet its origin is something of a mystery. This delightful Canadian season which was perhaps first known as "Second Summer" appears to have been fostered to the earliest white settlers by native Indians. This might account for its being named "Indian Summer."

Until the advent of this "extra season" many amateur weather prophets will assure you that summer has merely taken a short vacation and will be back again before the arrival of "Old Man Winter." While "Indian Summer" is an unpredictable phenomenon, not usually forecast by the weatherman, there is no mistaking its actual arrival, but its duration may vary from year to year. Unlike the "Chinook" winds which blow from the western mountains, warming the valleys and melting the prairie snow, there is generally an absence of wind during this "celestial" period. It is usually characterized by days of quiet, mild weather accompanied in some parts of Canada by a hazy atmosphere in daytime and clear, crisp nights.

Whatever may be said about "Indian Summer" it is the general consensus that autumn in Canada is in many ways the most agreeable as well as the most invigorating period of the year for out-of-door recreation. This is particularly true of autumn in the national parks. After the first frost light frosts deciduous trees don their mantle of brilliant foliage. The woods along the park highways become a riot of color—orange, gold, green, crimson, and many other widely variegated combinations which nature blends into a harmonious pattern for its own special fall showing. Wildlife, no doubt sensing the approach of winter, is more active than usual and more easily seen. Big game animals, which are one of the chief attractions in many of the parks, are more easily detected as they move about and rustle the dead leaves. The park highways and byways are less busy at this time of year, and the cool, crisp autumn air makes cycling, hiking, and riding more enjoyable than ever. When the day's activity is over, evening around the camp stove or camp fire can become a most enjoyable and comfortable experience and develop many pleasant memories. The canoeist can paddle farther now and can select many trips that would have been rather tedious during the heat of summer. Fish are biting well and there is an absence of mosquitoes and other annoying insects. Migratory birds are restless and are more in evidence as they prepare for their southward flight for the winter. There are generally greater opportunities for undisturbed nature study photography, and sightseeing.

Much has been written about the vivid beauty of the Canadian landscape in autumn, but it is only by getting into the open, exploring the winds and streams, the lakes and mountains, the roads and trails through valleys painted with nature's glorious autumn colorings, that one can truly appreciate the spirit of this season and feel the thrill of its magic spell. The enjoyment derived from trip through the national parks of Canada in autumn is an experience that will not easily be forgotten.

"I bought a book called 'How to Make Love' and now I don't know what to do."
"Why?"
"Well, it says you take the girl's hand, look into her eyes, and say: 'I love you, Beatrice!'"
"What's wrong with that?"
"My girl's name is Lizzie."

ANNE ADAMS

Two Ways To Do It!

Two pretty ways to make Pattern 4941 for your little girl! A tulip-festooned sundress or trim jumper. Blouse is cut in just ONE piece!

Pattern 4941 in sizes 2, 4, 6, 8, 10. Size 8, jumper, 1 1/4 yds. 39-in.; blouse, 1/2 yd. 35-in.; sundress, 1 1/4 yds. 35-in.; 5 yd. contrast.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man.

Before the introduction of printing into Europe in the 15th century, books were handwritten and bound by monks.

Drive out ACHES

A Lost Race

Scientists Discover Some Interesting Evidence Of Early American Life. Writing from Tucson, Arizona for CP Feature Service and The Ottawa Evening Citizen, Murray Sinclair says:

Meet Mrs. Anasazi, a fascinating woman, though she has been dead 600 years.

She was dug up recently by a group of anthropologists including Dr. Emil Haury, director of the Arizona State Museum and head of the department of anthropology at the University of Arizona, and E. B. Sayles, museum curator.

Mrs. Anasazi, as she was christened by the professor and his students of Arizona's Archaeologic Field School, came to light during excavations of a prehistoric ruin in the land of the Apaches at Point of Pines. She represents a lost race, they say, who lived in the region hundreds of years before Columbus discovered America and built a city with 100-room apartment houses, water reservoirs and terraced farms.

Make no mistake about it, this early American housewife was a brighter character, according to scientific deductions.

She used rouge, made from emerald, smarted herself with tamarind jewelry or pieces made from marine shells and deer bones. Occasionally she would do a thorough paint job on her face. And she was boss around the house.

This little woman dished up some attractive sounding meals, deer and antelope steaks and roasts, turkey or fish for the main course, and beans, corn or squash and cornmeal loaf.

She and her husband lived in a one-room, windowless, doorless apartment which the miners by a ladder through a hole in the ceiling. The opening could be covered by sliding a slab of rock over it.

A few of her squalid neighbors had two-room apartments with holes in the walls which could also be covered with slabs of stone, but these were the exception.

Even with the only room to look after, this prehistoric woman was plenty busy.

To make the family's clothes she took a stone scraper and went to work on the hide of a deer or antelope, she did a bit of weaving.

Then she had her many cooking and storage pots, bowls and jars to mold and bake. When finished she would paint them, using her own design or emulating a particularly attractive color scheme from the jars of a neighbor in the next apartment.

Life in this part of the nation around 1300 A.D. was good. Game was plentiful, the farms productive. Abundant forests were near by. At least 5,000 people lived here at this time. Why was the area abandoned and the civilization allowed to die? "That," says Dr. Haury, "is still one of the challenging problems facing us."

"It must have been some tremendous pressure which drove the Anasazi out of this area in the 14th century." No signs of war or conflict have yet been found.

Something in Common

City of Calgary Shows Originality In Restoration Of Her Historic Past. Calgary and Ottawa have one thing in common. That is—extraordinary relation—their dinosaurs.

The National Museum in Ottawa has the finest collection of dinosaur fossils in the Dominion, and perhaps the world. The city fathers of Calgary must have been asleep while the fossil hunters were combing the Red Deer River around Drumheller for such rare specimens. However, they have repaired their oversight in a remarkable way.

St. George's Island lies in the Bow River at its confluence with the Elbow. In the park which covers the whole island the city has built a museum of life-like dinosaurs of plaster and cement. They look today exactly as the scientists say, they looked 100 million years ago.

Dominating one view is a huge herbivorous beast beneath which a motor-car may readily be driven. It gazes out over the ball field with a Sphinx-like dignity. There are also ferocious looking flesh-eaters a short distance away. One of them is just emerging from a little stream where swans now feed.

In two large outdoor glass cases are a few real fossils, a medium sized herbivorous dinosaur, and some separate bones. But, compared with their days of greatness in the Mesozoic age, they make rather a pitiful showing.

The City of Calgary has shown originality in this restoration of her prehistoric past.

It will long be remembered by the tourist as a symbol of the city's progressiveness.

A New Adventure

Clerks Will Soon Be Sorting U.S. Mail In Sky

At the turn of the century the mail service captured the fancy of adventurous youth by offering postal jobs on the steam cars. There was snail in rolling post offices, hooked directly behind the locomotives, a clerk could work like mad with his pouches while hurtling across the country at a mile a minute. Boys thronged to this new excitement, boys who gloried in speed.

Today the Post Office Department and Air Transport Association are planning improved postal service in 38-foot flying packets to be modelled like mail cars. Clerks soon will sort in the sky. Motors roaring toward the stratosphere, wings slicing the dawn, props churning merrily—the mail dangles front enticement for adventurous youth.

We're betting these jobs will be snapped up as soon as they're available. Boys always want to go—fast, high and far.—New York World Telegram.

PLAN BIGGEST TELESCOPE

British optical engineers are eager to carry out what would be their biggest job—construction of the 100-inch telescope planned as a national memorial to Sir Isaac Newton. Estimated cost of the telescope is between \$1,500,000 and \$2,000,000. It will take several years to build.

DO THIS FOR

Night Coughing

WHEN A COLD stuffs up the nose, causes mouth breathing, throat tickle and night coughing, use Vicks VapoRub. Vicks treatments that go to work instantly...

At bedtime rub good old Vicks VapoRub on throat, chest and back. Then watch the PROTECTOR. STIMULATING action brings relief from distress.

IT PENETRATES to upper breathing passages with soothing medicine vapors. It STIMULATES the chest and back surfaces like a warming, comforting blanket, and it keeps on working for hours, even while you sleep—to ease coughing spasms, relieve muscular far soreness and tightness—and bring good comfort! Try it tonight... Vicks VapoRub.

ALWAYS DEPENDABLE WRAPPED AIRTIGHT TO ENSURE POTENCY

OUR COMPLETE SHORT STORY—

The Wrong Scent

By GEORGE N. JAMES

Copyright
Wheeler Newspaper Syndicate

FOR the past few days Mr. Ebenezer Twigg has been going about with his nose banded up, and he is responsible for this condition no one seems to know unless it be young Stan Brown, old S. H. Kent or the Rev. Miles. Anyhow most folks here in Clarksville are pretty pleased to see Mr. Twigg suffer in that way. They think it serves him right.

For plain downright trouble making, Ebenezer Twigg is way ahead of any other fellow in Clarksville. Folks blame it on that nose of his. Long and shiny it is, seemin' to fair twice at the end. On account of this he has organ the Twigg kin smell out scandal or any other kind of Ruckus when it's miles away. In fact, this same nose has more than once smelted trouble when no trouble existed.

Just to give you an idea of the kind of person this here Twigg is, there ain't no one that is ever perfect in his eyes. He's always writin' letters to the paper, complainin' about one thing and another. One day it's about the disgraceful condition of the long grass in his neighbor's front yard and the next it's about the infernal noise his neighbor's lawnmower is makin'.

It was a bad day for young Mr. and Mrs. Stan Brown when they comes back from their honeymoon to occupy the apartment right next to Mr. Twigg's. That long nose of his fair quivers with joy, like an old war horse that smells the smoke of battle. Newly married bliss is something that Mr. Twigg can't abide now. Bickering and quarrellin' he kin appreciate and these here honeymooned words of young married folks is way beyond his ken.

Mr. Twigg figures that if he waits long enough he'll hear them quarrelin', so night after night he spends with his ear pressed to the wall that separates him from the young couple. He kin hear them talkin' all right, kin hear that sweet little voice of Mrs. Stan and the jolly rumblin' tones of her big young hubby. However, to Mr. Twigg's disgust, not one cross word does he hear. This constant listenin' does one thing for Mr. Twigg. He becomes so familiar with the sound of them two pieces that he'd swear he could pick them out of a million.

Well, air, it's maybe two weeks since the young Browns moved in. Mr. Twigg, early one evenin', is passin' by their door on his way to his own rooms. He hears voices and just from force of habit steps to listen. The man is speakin'.

"Darlin'," he says, huskily, "I love you. Every day you grow more beautiful than ever."

Mr. Twigg's nose twitched with delight. That voice don't belong to Stan Brown. To make sure, Mr. Twigg claps his eye to the keyhole but the folks in the room ain't within his line of vision. All equiver this here Twigg person stocks around and listens. By and by he hears Mrs. Brown's voice.

"You know I love you, too, John," she says, "more than you understand—but what kin I do?"

Mr. Twigg is sure joyful when he hears this. She said "John" and her husband's name is Stan. He must act purty quick. Ah! He would find Stan Brown and tell him to git home as quick as possible. No, they wouldn't do. Husbands were sometimes a mite too cantankerous. By golly, witness! Yes, air, he'd bring witnesses up and surprise the hussy. Flout a love affair under Mr. Twigg's very nose, would she? He'd show her. The troll!

Mr. Twigg no sooner reaches the sidewalk than he spies old S. H. Kent. Here's a bit of luck because S. H. happens to be young Brown's boss.

"Mr. Kent!" calls out Twigg. Then he tells him the whole story. Old S. H. flares up and says Lord help Twigg if he ain't tellin' the truth. Just at that moment who should come by but the Rev. Miles. On hearin' the deplorable state of affairs, he consents to be witness No. 3.

With Mr. Twigg leadin' the way, the procession climbs to the Brown's apartment. Outside the door, Mr. Twigg holds up his hand for silence. "Then you will fly with me to-night, my beloved one," the feller is sayin'.

"To the ends of the world," answers the girl.

Mr. Twigg glances significant like, throws open the door and the three of them bursts into the room. "A purty occurrence," sneers Mr. Twigg. Then his mouth falls open and he stands there gape, his face the color of a ripe tomato. There they are, Mrs. Stan Brown and her husband, Young Stan Brown, glares. "What the devil," he asks, "is the meanin' of this intrusion?"

Old S. H. Kent looks as though he's goin' to hev a stroke at any moment. "The fact is, Ebenezer," he says, "we expected—er, that is—air, hum—" Then he turns on Mr.

ASPIRIN

EASES NEURITIC PAIN

GENUINE ASPIRIN IS MARKED THIS WAY

Twigg. "You sir," he bellers, "are responsible. Tellin' us another man was makin' love to Mrs. Brown!"

"Did he say that?" barks Stan Brown. "He did," replies S. H. "Furthermore he brought us up here to testify to her guilt, the snivellin' busybody! Told us a cock and bull yarn about yer wife and some other feller puttin' on a love scene, the rat!"

"I am deeply obliged, gentlemen, for yer interest," speaks up young Brown. "The fact is my wife and I have been rehearsin' a radio play I wrote. Possibly because I hev to raise my voice to record properly, the righteous Mr. Twigg did not recognize it."

As stated afore, Mr. Twigg is glib about now with his nose in a bandage. Consequently he can't smell so much trouble of late.

"LADY OF ROSES" CROSEN BEAUTY QUEEN

Prettiest Indian maiden at the Walpole Island, Ont., annual fair was Ala. Aitken, 15, who was chosen Miss Walpole Island. Ala's Indian name is "Lady of Roses".

Radium's radio activity lasts for centuries, and is only about half dissipated after 2,000 years.

RECIPES

SAUERKRAUT WITH BEEF

Home-made kraut from the crock with hamburger and tomatoes makes this satisfying dish.

4 tablespoons chopped salt pork
2 pounds ground beef
1 teaspoon salt
2 cups boiling water
2 pounds sauerkraut
2 cups cooked or canned tomatoes
3 onions, cut in halves

Cook salt pork until crisp. Add meat with salt and cook until browned, stirring occasionally. Add remaining ingredients and simmer one hour, or until sauerkraut is done. Makes eight servings.

Note: Meat may be shaped into patties or balls, if desired. Whole or sliced frankfurters may be used instead of beef; add during last 15 minutes of cooking.

DEVILS FOOD FUDGING

1/4 cup sugar
1/4 cup milk
2 squares unsweetened chocolate
1/2 cup shortening
1 egg
1 cup sifted flour
1/2 teaspoon soda
1/2 teaspoon salt
1/2 teaspoon vanilla
1/2 cup bran.

Combine 1/4 cup sugar, 1/4 cup milk and chocolate and cook, stirring occasionally until thick. Cool. Blend shortening and remaining sugar; add egg and beat until light and fluffy. Add chocolate mixture. Add sifted dry ingredients alternately with remaining milk and flavoring; mix well. Stir in bran. Pour into greased shallow baking pan. Bake in a slow oven (300 deg. F.) about 40 minutes. Cut into squares and serve warm with whipped cream or ice cream. Yield: Nine servings (8x3-inch pan).

Buenos Aires is the largest city below the equator.

MAY BE LAST

Rationing Expected To End When New Book Runs Out

The new ration book No. 6 is expected to be the last ration book to be issued, Prices Board officials said. They confirmed that the absence of the usual application blank in the new books means that it is expected to see the consumer through to the time when rationing will be discontinued. "The No. 6 book lasted approximately two years," a spokesman said. "It is thought the book now being issued will last longer. That is as far as we can go at the moment."

SMILE AWHILE

Hoping to get a rise out of the farmer, working in a field by the road, a fellow called:

"Hey, did you see a wagonload of monkeys go by here?"

"No," replied the farmer, "did you fall off?"

Mr. Smith: "I understand your wife is a finished soprano."

Mr. Jones: "No, not yet, but the neighbors almost got her last night."

Squire Perkins: Nell, after I do I wish you would marry Deacon Brown.

Nell: "Why so, Hiram?"

Squire: "Well the Deacon trimmed me on a horse trade once."

Small girl (to seven-year-old friend): "Oh, I think you're lots better looking than your daddy."

Boy (true-child-of-the-moister era): "Well, I oughta be—I'm a later model."

A doctor's little daughter, deeply interested in radio, glanced one morning into the office where her father was testing the heart and lungs of a patient.

"Getting any new stations, Daddy?" she inquired.

Magistrate: "You cannot drive now for two years, for you're a danger to pedestrians."

Defendant: "But, your honor, my living depends on it."

Magistrate: "So does theirs."

Bride: "My husband admires my taste in hats so much he never likes to have me discard one."

Mrs. Longwood: "My husband also wants me to keep on wearing my old hats, but he isn't clever enough to think up as nice an excuse as that."

Newspaper Contributor (in letter): "I am a speedy writer. I finished the enclosed article in an hour and thought nothing of it."

Editor (replying): "I got through your article in a fraction of that time and thought just the same."

"You can get anything at a mail order store," remarked the lady next door.

"Everyday, alas, but a male," sighed the spinster.

Money for defense and a melancholy commentary on the state of the world that over one quarter of the United States' new budget will be devoted to defence. Of \$44 billions voted by Congress for the year which began July 1 last the War and Navy Departments get \$11 billions.

Cosmic Rays

Thinks Scientists Could Be More Usefully Employed

The scientists are monkeying with the buzz-ard again. Some of the best of them at MIT are going up 40,000 feet in a B-29 gunning for cosmic rays, which, if a layman understands the subject at all, come in from Lord knows where and explode into particles, called mesons, that are millions of times more muscular than anything released by an atom bomb.

We wish the professors wouldn't do these things. If they should get in the way of a meson they would be greatly missed; moreover, they have already given the world more knowledge than it can ever comprehend, let alone use; and, furthermore, there are so many needed things they might be doing right here on the ground.

Let them invent for instance the vespoocket radar the Chattanooga Times is agitating for a device that will tell a shopper at a glance whether a watermelon is ripe. The device with cosmic rays—New York Times Magazine.

MONEY FOR DEFENSE

It is a startling and a melancholy commentary on the state of the world that over one quarter of the United States' new budget will be devoted to defence. Of \$44 billions voted by Congress for the year which began July 1 last the War and Navy Departments get \$11 billions.

Wasted Time

Claim That Young People Of Canada Do A Lot Of Loafing

CALGARY.—Canadian youth spends the time talking, listening to the radio, reading, dating and dancing, going to movies and loafing, according to a survey of problems confronting the young people of the Dominion, made recently by the Canadian youth commission.

Ernest McQueen of Ottawa, secretary of the recreation and leisure time division of the Canadian welfare council, discussed the findings and recommendations of the report at a meeting sponsored by the council of social agencies.

"It is an alarming fact that 16 per cent. of our boys and girls, 15 to 24 years of age, have no creative activities and have found nothing more profitable to do but waste their spare time," he said.

BID WAS HIGHER

The minister's son was in the habit of going to church every Sunday with his grandpa.

"Billy," said the minister, one Sunday, "I've been giving you a dime every Sunday to keep your grandpa from sleeping, yet he sleeps."

"I know," said Billy, "but Grandpa is giving me a quarter to let him sleep."

Banknotes are said to be made from old shirts. We always wondered what happened to those we lost at the races.

Proposed Tunnel

May Be Built Across The Clyde In Scotland

GLASGOW.—The Glasgow project of building a bridge across the Clyde at Finnieston, debated for 40 years, will probably be abandoned in favor of a cross-river tunnel costing more than \$12,000,000.

This is the recommendation of the city's highways and planning committee and the whole council will discuss the matter soon.

In 1897 a formal decision was made to build a high-level bridge costing \$1,250,000 and the war caused postponement of construction. Some land was acquired, however. The suggestion is that it be used to build new factories.

HOW TO RELIEVE PILE TORTURE QUICKLY AND EASILY

If you are troubled with itching piles or rectal soreness, do not delay treatment or run the risk of letting this condition become chronic. Any itching or soreness or painful passage of stool is nature's warning and proper treatment should be secured at once.

For this purpose get a package of Hemorrhoid Cream. It is a simple, easy to use, and quick-acting remedy for itching and soreness of the rectum. Hemorrhoid Cream is a highly effective remedy for the relief of itching and soreness of the rectum. It is a simple, easy to use, and quick-acting remedy for itching and soreness of the rectum. It is a simple, easy to use, and quick-acting remedy for itching and soreness of the rectum.

Rain And Earthquakes

Under Certain Conditions Water Causes Or Hinders Decease

Rain can help set off earthquakes, according to Prof. V. Conrad of Harvard University's Blue Hill Observatory. It does not hasten the occurrence of all earthquakes, but only those resulting from the down-bending of rock strata by the slow loading of erosional debris on top of them. The thousands of tons of water that filter down into the ground after heavy rains may prove the last straw in such a loading increasing the strain in the supporting rocks to the breaking point.

Contrariwise, where an earthquake is in the making as the result of forces from beneath pushing up on the rock layers, the added burden of accumulated rain water will push in the opposite direction, perhaps delaying the occurrence of the earthquake.—Science Service.

Blaimore, Alta., Fri., Sept. 27, 1946

The limit for purchases of the new
Canada Savings Bond by individuals,
has now been set at \$200. Purchases
of the new security may only be made
in the name of individuals and not in
the name of firms, institutions, or in
trust for second parties.

The decision to place a limit on pur-
chases by individuals bears out a state-
ment made by the minister of finance
to the House of Commons last June.
Mr. Massey pointed out at that time
that, since the terms of the Canada
Savings Bond would be more favorable
than those available for comparable
securities at the time of issue, it
would be necessary to restrict in-
dividual holdings. If no limit were
set, the new security would naturally
be purchased in volume by institu-
tions and larger investors for whom it
is not intended. The Canada Savings
is designed solely as a personal sav-
ings facility.

All Canada Savings Bonds will be
registered as to principal. This regis-
tration is made necessary by the need
to control holdings, but will offer pro-
tection to holders against loss of their
investment at the same time. Further,
bonds may be registered in the name
of minors as well as adults. It is prob-
able that many purchases will be regis-
tered in the names of children and
others by those who wish to take
added advantage of the investment
opportunity but who would otherwise
be restricted to the \$200 limit on pur-
chases in their own home.

An unusual feature of the new
bonds is the privilege of turning them
into cash at any time for full face
value, plus interest, at any bank.
While the interest rate is expected to
be considerably better than is avail-
able for other forms of saving and
more favorable than that of com-
parable investments at the time of issue,
the exact terms of the Canada Savings
Bond will not be announced by the
minister of finance until September
30th. Denominations of the new bonds
will be \$50, \$100, \$500 and \$1000.

Doctor: "This is a very sad case.
I much regret to tell you that your
wife's mind is completely gone."

He: "I'm not surprised, doctor, she's
been giving me a piece of it every day
for the past ten years."

HERE IS NO FINEER CARBONATED BEVERAGE
THESE ARE THE DELICIOUS TASTE THAT CAN BE FOUND ONLY IN PEPSI-COLA

PASS CHAIN OF THEATRES CHANGE HANDS

One of the largest business
transactions in the Pass in many
years took place in recent days
when Wm. Cole, of Bellevue, sold
his theatres in Bellevue, Blaimore
and Coleman as well as his Bel-
levue home to Parnell & Sons, of
Ponoka, Alberta. The Michel the-
atre has also been sold, the buyer
being Mr. Cole's cousin who is also
named Wm. Cole. The latter has
been manager of the Michel the-
atre for many years.

Mr. and Mrs. Cole will continue
to operate the theatres until Sat-
urday, Oct. 19, when they will
leave for the west coast and the
new owners will take over active
management.

It was back in 1917, August 19
to be exact, when Mr. and Mrs.
Cole first started in the the-
atre business in Bellevue. ex-
tending their holdings to Hillcrest
shortly after. It was the old silent
days and the modern machinery
of today was only a dream in 1917.

Mr. Cole sr., who was in the
Pass from Victoria during the
signing of the business over to the
new owners, stated to The Journal
that he and his wife spent many
years of hard work to get their
business on a sound basis. Mr.
Cole sr. was an active community
worker in Bellevue and was at one
time a member of the school board.
Before leaving for his Victoria home
last week he stated it was
with a sense of regret that he was
cutting off all business contact with
the Pass which he still called home.

Mr. and Mrs. Wm. Cole Jr. took
over active management of the
Bellevue and Hillcrest theatres in
1934 when the former's parents de-
cided to retire from business and
reside at Victoria. Four years later
they bought the Coleman and
Blaimore theatres from Mr. Romo-
e Rinaldi. Due to the closing of
the Hillcrest Collieries some years
ago Mr. Cole withdrew his equip-
ment from the Hillcrest theatre and
sold the building.

While he has sold his theatre in-
terest he will maintain his interest in
Turtle Mountain Playgrounds at Frank.

Mr. Cole spent fourteen months
with the Canadian Army during
which time the theatre business
was ably managed by his com-
petent wife who took over the reins
of business like a veteran.

Bill, as he is most commonly
known, is quite a sportsman and is
an active hunter and fisherman as
well as taking an active interest in
hockey and skiing. During the past
few winters he has managed the
Bellevue and Blaimore hockey clubs.

Both he and Mrs. Cole and their
young daughter Janice have no
immediate plans for the future
other than spending the winter at
Victoria. The new owners are no stran-
gers to the entertainment business
as they have operated theatres at
both Wainwright and the Peace
River. At the present time they
reside at Ponoka. Members of the
family have paid brief visits to the
Pass during the business transac-
tions pertaining to the change of
ownership and have met the staffs
of the three theatres. — Coleman
Journal.

The small boy was taking part in
the children's day exercises. He was
only seven years old and recited so
well that he was encored.

Proud Father (when the boy re-
turned home): "Well, Junior, how did
you get on?"

Junior: "Why, I thought I had done
it alright, but they made me do it
again."

WESTERN WEEKLY EDITORS ATTEND CONVENTION

Attending their first annual con-
vention since the war, more than
200 members of the Canadian
Weekly Newspapers Association
travelled from Montreal to Halifax
by special Canadian Pacific Rail-
way train, crossed the Bay of Fun-
dy on the Canadian Pacific's Hod-
den and finished their journey on a
special Dominion Atlantic Rail-
way train.

Top photo shows a group of British
Columbia editors; and their
wives in a lounge room of the
Princess Helene enroute across the

Bay of Fundy. They are, left to
right, S. P. McKinnon, Cloverdale;
Irving Wilson, Port Alberni, who
came delegates from Alberta
convention; K. B. Warner, Smith-
ers; William J. Rimes, Vanderhoof;
Mrs. J. Wilson, Ralph E. White,
Kamloops; Mrs. Irene Jones, Agass-
ing; C. F. McKenzie, Roseland.

bury, Esterhazy, Sask., and Mr.
Stobesbury, get advice on the mid-
day meal from steward Bob Hood.

Some delegates from Alberta
(lower photo) are shown in front
of the Grand Free shrine, one of
the points of interest visited.
The picture includes A. H. Avery, Tab-
er, and Mrs. Avery; Mrs. C. C.
Jeasup, Nanton, and Mrs. Jeasup;
Mrs. Ben A. Huckell, Innisfail, and
Mrs. Huckell; F. P. Galbraith, Red
Deer; Mrs. H. G. Thunell, Viking,
and Mr. Thunell; Mrs. H. T. Halli-
well, and Mr. Halliwell, Macleod.

WILSON-D'AMICO

A wedding of interest took place
at St. Anne's church, Blaimore,
on Saturday, Sept. 21, when En-
core, daughter of Mrs. Mary D'Am-
ico, of Hillcrest, and Becher, son
of Mr. and Mrs. J. B. Wilson, of
Vancouver and formerly of Blair-
more, were united in marriage.
Rev. Father Harrington officiated.

The bride looked charming in an
afternoon dress of aqua with black
accessories and wearing a corsage
of yellow roses.

She was attended by her sister,
Miss Rose D'Amico, who chose a
gold afternoon dress with brown
accessories and a white gardenia
corsage.

The groom was attended by his
brother, Mr. Douglas Wilson, of
Edmonton.

Following the ceremony a recep-
tion was held at the home of Mr.
and Mrs. Adam Wilson in Coleman
where guests enjoyed a delicious
buffet lunch.

For going away the bride chose
a Fruch's Red tailored suit and
black accessories. The happy cou-
ple will spend a honeymoon at
Seattle and Vancouver. Upon their
return they will reside at Blair-
more.

Out of town guests included
Douglas Wilson of Edmonton, Mr.
Roy Bourne of Calgary, Mrs. Mar-
garet Wilson of Lethbridge, Mr.
and Mrs. J. McKay of Lethbridge
and Mr. Sam D'Amico of Medicine
Hat.

"Who was that lady I saw you with
in a sidewalk cafe last night?"

"That was no cafe. That was our
furniture."

AUCTION SALE OF TIMBER CROWNEST-BOW RIVER FOREST RESERVE

Timber Sale No. 427

The right to cut certain timber on
the following lands will be offered at
public auction at the office of the For-
est Superintendent, 128-7th Avenue
West, Calgary, Alberta, at 2:00 o'clock
P.M. on Thursday, the twenty-fourth
day of October, 1946:

The N.W. 1/4 of Sec. 1; S. 1/4 & N.
E. 1/4 of Sec. 11; W. 1/4 of Sec. 12 and
all of Section 13 not included in Tim-
ber Berth No. 80, all in Twp. 6, Rge.
4, W. 5th Meridian.

On these lands there is estimated to
be two million five hundred thousand
linear feet of fire-killed spruce and
pine suitable for the manufacture of
mine timber and one million feet board
measures of fire-killed spruce and pine
suitable for the manufacture of lum-
ber but only such timber shall be cut
as is marked or otherwise designated.

The sale will be offered at an upset
price on fire-killed mine timber five
inches up to but not including nine
inches at the butt at one-twentieth of
a cent less than the rate of dues as
prescribed by the Forest Reserves
Regulations for dry mine timber. On
all other products dues shall be pay-
able at the rates as prescribed by
Forest Reserves Regulations with the
exception of saw timber of a species
other than poplar on which dues shall
be payable at the rate of \$1.00 less
per thousand feet board measure than
the rate prescribed by the Regulations.

Bids will be accepted only from an
individual, body corporate, or regis-
tered partnership, partners to submit
proof of registration at time of bid-
ding, and the purchaser will be allow-
ed until May 1st, 1947, to cut and re-
move all timber covered by the condi-
tions of sale.

Each bidder will be required to de-
posit with the officer conducting the
sale the sum of \$650.00 in cash, bank
draft or accepted cheque on any char-
tered bank in Canada of by certified
non-negotiable Transfer Voucher pay-
able to the Provincial Treasurer be-
fore being allowed to bid.

Agents will be required to file let-
ters of authorization from their prin-
cipals before bidding.

The deposits of the unsuccessful
bidders will be returned to them at
the conclusion of the sale and that of
the purchaser held as a deposit to
guarantee compliance with the terms
and conditions of sale.

Full particulars may be obtained
from the Forest Superintendent, 128
7th Avenue West, Calgary, Alberta, or
the Director of Forestry, Edmon-
ton, Alberta.

Being in the nature of a reminder of
how the Royal Bank can help to make
your holiday happy and carefree.

1. Make sure your valuables are safely
tucked away in your Safe Deposit Box.
Or store them in our vaults for safe-
keeping. The cost is trifling. Ask at
any branch.

2. Change your reserve cash into
Travellers' Cheques... the safe worry-
free way to carry travel funds. As
good as money anywhere. If you lose
them, you're not out a cent.

3. Should you run short of cash during
your trip call on the nearest Royal
Bank branch. The local manager is
your direct line of communication
back to your own home branch.

4. Arrange to have your salary or
other income credited to your account
in your absence. Clean up unpaid bills
with Cheques against your Royal
Bank account or mail Royal Bank
Money Orders.

5. Should you wish to combine
business with pleasure you can find
the local Royal Bank Manager in any
district a mine of information on
local business conditions.

6. If you are travelling abroad,
remember The Royal Bank operates
branches in the West Indies, Central
and South America, New York, Lon-
don and Paris... each branch a home-
from-home in all financial matters.

United States Tourists are cordially invited to use
our branches for cashing Travellers' Cheques, nego-
ciating Letters of Credit or for any banking service.

BELLEVUE BRANCH - L. B. LONG, Manager

Travel Will Be Fun Again via Canadian Pacific

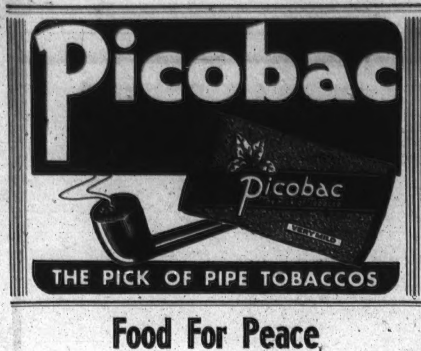

Remember how pleasant it used to be to travel on Canadian Pacific ships! Remember the cuisine, the courteous service, the fun of shipboard life...and the ships themselves!

Just now there's a big job to do repairing the wear and tear of wartime years—replacing lost ships...but, when it's done, travel will be fun again—the Canadian Pacific way! Soon a new, two ocean fleet will plow the sea routes of the world...and once again it will be possible to go from Shanghai to Southampton—Canadian Pacific all the way!

Dibac

THE PICK OF PIPE TOBACCOS

Food For Peace

HISTORY HAS SHOWN that war and rebellion have frequently been the direct result of lack of food. People who are hungry are desperate and are willing to attempt any means of improving their conditions, making them a ready prey for unscrupulous leaders and distorted ideologies. It is now recognized that one way to keep peace among the nations is to ensure equitable distribution of food in every part of the world, at prices which will make it available to all levels of the population. With this end in view, the United Nations' Food and Agriculture Organization, which has proved so far to be one of the most active of the United Nations' organizations has proposed an international granary to be administered by a permanent world food board, combining the work now carried on by U.N.R.R.A. and the international emergency food council.

Stable Prices Are Proposed

It is proposed that world food prices could be stabilized by such a board if minimum and maximum prices were set on foods on a basis of the anticipated supply and demand. In the case of any commodity being in excessive supply, and the price falling below the minimum, the board could buy it up, until the price was stabilized. In reverse, it could place on the market additional supplies of foods whose prices had risen above the maximum. It is also proposed that the board should organize a six to twelve months' food reserve, to be used in case of crop failures should any one commodity be produced in such quantity as to threaten the world balance, the board would have the power to set export quotas between the producing nations. There would be necessity for the operation of a board of this nature and it was suggested that these could be raised, in part, at least by contributions from the nations benefiting from its services.

Might Produce Wide Benefits

In suggesting the plan for a permanent world food board, the Food and Agriculture Organization emphasized that development of trade and industry would be necessary for its success, since they provide the means to purchase food. The outcome of these proposals should be watched with interest, for they may have a very important effect on the course of events in the future. Any matter connected with agriculture is also of vital interest in this country and a plan which would ensure stability of prices for farm products would affect a large part of our population. Farmers have suffered much in the past due to world market conditions which are far beyond their control, and a well organized world food board, such as the Food and Agriculture Organization has proposed, might bring considerable benefit both to producers and consumers in many parts of the world.

SLUGGISH?

Try this effective gentle relief!

When you feel sluggish and lousy, simply take 2 to 4 tablets of Phillips' Milk of Magnesia with water at bedtime. You'll be overjoyed with the way this proved laxative-cleanser works. You'll feel light and refreshed, Phillips' works effectively, yet it is wonderfully gentle. Phillips' Milk of Magnesia is known to science as one of the fastest neutralizers of excess stomach acidity known! Get genuine Phillips' at your druggist today. Remember...

Mapping The North

R.C.A.F. To Take Photographs Of Saskatchewan Areas

EDMONTON.—Some 40,000 square miles of territory north of Edmonton will be photographed by the Royal Canadian Air Force, headquarters, North West Air Command said. The area extends as far north as Lesser Slave Lake and north east to Lake Dore in Saskatchewan.

The purpose of the work is to provide photographs from which maps of the known and uncharted parts of Canada can be made.

WOMEN who SUFFER MONTHLY PAIN

New Substance To Keep Front From Windshield

Nesa, a transparent coating for glass windshields which conducts electricity evenly across the surface is seen as an eliminator of icing and interior fogging in aircraft. William O. Lytle, Pittsburgh Plate Glass research engineer, is credited with developing Nesa. Tests show no distortion of vision, no material reduction in light intensity and an added strength against impact at low atmospheric temperatures. Nesa treatment can be applied to plate glass, laminated safety glass, and multiple-glazed units. Electrical contact is made through metallic bus bars at the glass edge.

Birds For Canada

Shipment Of Animals Has Arrived From Britain

Nine birds (seven of which were canaries) and eight valuable dogs arrived in Montreal recently from London, England. The dogs, which included one valued at over \$4,000 comprised four champion bulldogs, a cocker spaniel, and three Welsh corgis (squat, short-haired, terrier-like animals). The corgis are valued at over \$1,000. The bulldogs were destined to Duncan, B.C.; the corgis to North Hatley, Que., and the cocker spaniel to Abbotsford, B.C. The seven canaries were destined to Windsor, Ont., and two racing pigeons were bound for Calumet City, Illinois.

PREFER THE FARM

Girls Helping Out During Summer Vacations

CLARKSON, Ont.—The nucleus of a new "back-to-the-land" movement might be found among a group of "big city" girls who have been spending their summer months on farms in this district about 20 miles west of Toronto.

Comprising university and high school students, typists, stenographers and secretaries, the group generally is well disposed to farming as a career. In fact, some of the girls said they would prefer to marry farmers rather than city men.

"I'd love to live on a farm all my life," was the enthusiastic comment made by petite Claire St. Pierre of Quebec City. Claire, just turned 19, could only say "yes" and "no" to the flash before she came here and now has a large vocabulary at her command.

"But if a farmer boy proposed to me, I'd say 'yes' any time," she added.

Valerie Charlebois of Fort William is seriously considering giving up her chosen profession as a stenographer because "farming is a lot more fun." And 18-year-old Margaret Willis, a student majoring in psychology at the University of Toronto, said she was quite willing to trade her degree for a few acres of ground any time.

Housing Drive

Some Details Regarding Construction In Britain During Current Year

The rate of progress of Britain's housing drive is increasing. White Papers published on August 29th show that during July 10,395 houses were completed of which 5,109 were permanent. This is the highest figure since the end of the war, comparing well with June's total of 8,039. The total number of houses completed since April 1st, 1945, is 60,452, 20,027 of which are permanent, and of them 2,478 are blitzed houses completely rebuilt. Private enterprise has been responsible for the larger part of the permanent houses completed to the end of July—11,917 compared with 8,110 built by local authorities. During July work has begun in England and Wales on 14,292 new permanent houses. Local authorities are responsible for 11,366 while 2,926 are being put up by private builders. Since March accommodation in all categories—permanent and temporary houses repaired or requisitioned—has been found for 202,007 homeless families in Britain, an increase of 14,516 in July.

A glance at the figures for dwellings now under construction in Britain shows that preference is being given to permanent homes. Out of 163,232 in preparation 134,096 are permanent and only 29,136 temporary. The increase during July of houses in the course of construction is 19,177.

620,000 houses damaged during the war but still considered habitable have also been repaired by the end of July.

Excluding prisoners of war 521,500 men were employed on housing in England and Wales at the end of July. In June the total was 515,906 while in July, 1945, the total was only 320,400. As repairs to damaged houses decline so men are switched to the building of permanent houses. Scotland's labor force in July totaled 45,550.

World Brotherhood

Can Never Be Obtained Apart From Christianity

PHILADELPHIA.—World brotherhood and peace will never be attained apart from Christianity, the Archbishop of Canterbury, Most Rev. Geoffrey Francis Fisher, D.D., said at the closing session of the 49th National Convention of the Brotherhood of St. Andrew, Episcopal Lay Organization.

GEMS OF THOUGHT

BUSINESS OF LIFE

To cultivate kindness is a valuable part of the business of life.—Samuel Johnson.

Let us serve instead of the snail. Instead of push at the door of human hearts, and allow to each and every one the same rights and privileges that we claim for ourselves.—Mary Baker Eddy.

We can only have the highest happiness by having wide thoughts and much feeling for the rest of the world.—George Eliot.

Teach us delight in simple things and mirth that has no bitter springs.

Forgiveness free of evil done. And love to all men 'neath the sun.—Rudyard Kipling.

Our grand business in life is not to see what lies dimly at a distance, but to do what lies clearly at hand.—Carlyle.

Let us see to it that our lives, like jewels of great price, be noteworthy not because of their width, but because of their weight.—Seneca.

In New York the Tailors Guild was told that a man to be well-dressed should have six business suits and 12 pairs of shoes. 2091

FAMOUS ARCHITECT

Canadian Who Designed Empire State Building, Is Dead

HASTINGS-ON-HUDSON, N.Y.—Richard Harlow Shreve, the Nova Scotia Scot who designed modern man's most impressive structure, the Empire State Building in New York City, died here recently. He was 69.

Member of a New York firm which designed the 102-story Empire State Building, Mr. Shreve also aided in the designing of New York City's second most valuable real estate property, the \$50,000,000 Parachute housing development in the East Bronx.

Parachute, 13,000-apartment residential and business project owned and operated by the Metropolitan Life Insurance Company, houses nearly 40,000 residents in 51 buildings covering 129 acres of land. Its tagable valuation is second only to the \$100,000,000 Rockefeller Centre in mid-Manhattan.

The development comprises buildings ranging from six to 13 stories, each with a dozen or more apartments.

Mr. Shreve was born in Cornwallis, N.S. He was a son of Very Rev. Richmond Shreve, once Dean of the Anglican Cathedral in Quebec City.

Farm Competition

Two Quebec Farmers Were Awarded Gold Medal

QUEBEC.—J. A. Eccles of Sweetwater and Philibert Audet of Compton have taken first and second place respectively in the 1946 Agricultural Merit competition for farmers of the province, Minister of Agriculture Laurent Barre announced.

The two farmers become Commanders of the Agricultural Order and will be awarded the Gold medal in the Quebec provincial exhibition. Mr. Eccles placed first with 93.25 while Mr. Audet obtained 92.00 points. In the silver medal section, Raoul Poirras, of Ste. Helene, Bagot County, headed the list with 90.5 points.

The competition this year attracted 79 candidates in the different classes; professional farmers 11, gentleman farmers 2, silver medal 38, and bronze medal 28.

When your BACK ACHES...

Backache is often caused by *lary kidney action*. When kidneys get out of order acids and poisons remain in the system. Precious Stones

British-American Agents Recover Hoard In Germany

FRANKFURT.—British and United States agents seized precious stones and metals possibly exceeding \$10,000,000 in value and arrested hundreds of Germans in the largest joint British-American operation in Germany since the dissolution of supreme headquarters, it was announced.

Sweeping suddenly on 367 selected places in the two zones, the raiders recovered a vast hoard of diamonds, gold, silver and platinum. A spokesman said it was "conjectured but conceivable" that the hoard may have been designed to finance "a resurgence of German nationalist movements."

Clues to the hiding places came from typically thorough German records of the Reichsteile fuer Edelmetalle (Reich agency for precious metals) which told how the hoard had been dispersed before the war's end in an attempt to keep it from falling into allied hands.

Tubulation of confiscated materials was not complete, but from 79 places—less than a quarter of the total number of points raided—about \$2,500,000 in precious stones and metals was recovered, the spokesman said. He indicated the total may run above \$10,000,000.

HEAT FROM THE SUN

BOSTON.—The United States Civilian Production Administration said that it has authorized Massachusetts Institute of Technology to build an experimental solar house for research in heating homes with energy from the sun.

Ice cream was invented in Italy in the 14th century.

RICHEST GOLD MINE

The richest gold mine in history lies today beneath the village of Olenokskaya Rust in the Union of South Africa. Its ore contains 20.6 ounces of gold (\$2,200) to the ton, or about 100 times as much as that of the average gold mine.

92 Years Old—and Fit as a Fiddle

Run Up and Down Stairs

"I feel in top form," writes Mrs. A.J.W. "to express my gratitude for the better-than-expected results my father has obtained from Kruschen Salt. He is ninety-two years old, and is as fit as a fiddle. He can slip about, and run up and down stairs. His friends marvel why it is he is always alert and never feels slack. He always tells them, 'I believe it is my regular dose of Kruschen Salt in my first cup of tea every morning.' We always recommend Kruschen Salt to all our friends. To my idea, no family should be without Kruschen."

Most people grow old long before their time, and many of them neglect that vital need of health—the need for internal cleanliness.

The majority of these people could feel so much better and brighter... yes, feel more spry, too... if they would follow the Kruschen plan for a while. Simply take a small morning dose of Kruschen Salt in tea, coffee or hot water. That's all there is to it. Lessen the dose or discontinue altogether when you are regular. After that take when you need it. Two, three, five and ten at all druggists. Ask for Kruschen.

NEW TYPE GLASS

The physical characteristics of a new silicone glass laminated plastic are improved after a week's baking at 350 degrees Fahrenheit, which would have caused other laminates to deteriorate.

tasting LIPTON'S TEA

Says United States Will Not Attack Russia

WASHINGTON. — President Truman obtained from Commerce Secretary Wallace a pledge of silence, while keeping him in the cabinet, and promptly rushed out a reassurance that the United States has no idea of attacking Russia.

Mr. Wallace, in a letter made public, said "a school of military thinking" advocated a preventive war on Russia before the Soviets have atom bombs. Mr. Wallace denounced such thinking.

Mr. Truman took two decisive steps in short order:

1. He arranged for a gag on Mr. Wallace for the duration of the Paris peace conference. Coincidentally, it also may last through much of the congressional campaign for the fall elections.

2. He got from War Secretary Patterson and Navy Secretary Forrestal a joint letter completely disavowing any such "thinking" as Mr. Wallace referred to, and had his aides release it to newspapers immediately without comment.

The text of the letter follows: "In the letter of Secretary Wallace dated July 23, published in the newspapers this morning, the statement is made that 'a school of military thinking' is advocating a preventive war, an attack on Russia now before Russia has atomic bombs."

"There is no basis for this statement. There is no such military thinking in the war and navy departments. We know of no responsible officer in the army or navy who has ever advocated or even suggested a policy of attacking Russia."

Mr. Truman apparently told Mr. Wallace emphatically that he stands four-square behind State Secretary Byrnes and the methods Mr. Byrnes is pursuing, which Mr. Wallace criticized.

WESTERN COAL

Predict Price Increase For Coal Mined In The West

CALGARY.—Sources close to the western Canada coal industry predicted an increase of about 50 cents a ton for domestic coal mined in the west, as the dispute between some 9,000 miner and coal operators appeared near settlement with the miners conceding a \$1.40 per day wage increase.

The increase must now be ratified by the war-labor board and the mining locals. A number of minor points in the dispute still remain to be settled.

Minister authorities said the average man-per-day production in the domestic fields stretching from Estevan, Saskatchewan, to Vancouver Island was about 15 tons. The wage increase alone of \$1.40 a day would mean an additional cost of 40 cents a ton, they said. The domestic mines employ about 4,500 men.

Other concessions granted the miners that are expected to increase the price of domestic coal include the welfare fund royalty of three cents a ton, reduction from a 48-hour to a 40-hour work week, with mine maintenance allowances remaining the same and new holiday provisions.

The increase granted the 4,500 bituminous miners are not expected to affect the public so directly. Chief customers of these mines, which are located in Alberta and British Columbia, are the railways, steam industrial plants in the west and the big smelting company plant at Trail, B.C.

The wage increase is expected to put an additional \$3,000,000 in the miners' annual paychecks, boosting individual wages from \$7.50 to \$8.95 per day.

ENTITLED TO BONUS

Many Alberta Townships Are Declared Crop Failure Areas

EDMONTON.—Application is being made to the federal government to declare 406 Alberta townships as crop failure areas. Affairs Ministers C. B. Gerhart said.

An area is declared to be a crop failure section through having an average wheat yield of less than five bushels per acre. The farmers are entitled to a bonus under the Prairie Farm Rehabilitation act.

The Alberta townships are in the special areas in the eastern part of the province and extend to the south-east corner to the vicinity of the international border.

LEVEL MAINTAINED

No Change In Sugar Ration Or Price For Canadians

OTTAWA.—The Canadian sugar ration will "definitely" be maintained at its present level despite a sharp drop in sugar stocks and the price of sugar will be maintained despite an increase in sugar prices in the United States, prices board officials said.

The Dominion board of statistics in its latest report on the sugar situation, said stocks on hand last Aug. 10 dropped to 90,844,580 pounds from 100,722,725 the previous week and 105,071,285 the corresponding week last year.

NEED 'WALKING STICK' FOR CANCER RESEARCH

Urgently needed in cancer research are these insects known as "Walking Sticks". June Tait of the Red Cross has sworn of the insects on her. They are being collected by the Red Cross for use by Dr. W. R. Frank, who is conducting cancer research.

Atomic Bomb Spreads Havoc At Bikini Island

WASHINGTON.—The underwater atomic explosion at Bikini strengthened the conviction of many persons in and out of the armed forces that the armies and navies of the Second Great War are out of date. That explosion added a new dimension to warfare. Defensive weapons, as now constituted, would be helpless against it.

It was a dimension of invisible and soundless death persisting for months in the form of widely disseminated radioactivity against which no protection now seems feasible.

It was a dimension of the nature of which is not yet fully understood and about which the military is reluctant to talk—ostensibly for reasons of national security. But from what is known, it seems reasonable to speculate that the atomic bomb, as a depth charge, could:

1. Knock out a major harbor, like New York's, for months.

2. Spread radioactive poison throughout a waterfront area, in the case of New York knocking out the nation's financial heart and stopping traffic in its most vital port.

3. Clamp an unbreakable blockade on certain strategic straits and perhaps large coastal regions.

The Hiroshima, Nagasaki and Bikini atomic air bursts loosed violence of an order which made obsolete many existing concepts of military defence. But such atomic violence, however complete, is short term. Armies could have marched safely through Hiroshima and Nagasaki the day after their destruction. There was no lingering radio-activity. It was dissipated in high strata of the atmosphere.

But the second Bikini test, in effect a depth charge, added enduring and spreading horror, with overtones of inevitable doom.

POLICE OPPOSITION

Luxury Squatters In Britain Revolt Against Housing Program

LONDON.—Britain's Communist-led luxury squatters bowed before court and police opposition and began evacuating the plush apartment buildings they commandeered 10 days ago in a revolt against the government's housing program.

Dozens moved out of the Ivanhoe hotel in Bloomsbury, and a spokesman for 300 squatters entrenched in the Duchess of Bedford House in fashionable Kensington said they would "all march out together," hoping for "human consideration" from public authorities.

The exodus came after the government, despite swelling opposition from Labor union ranks obtained court orders evicting some squatters and announced that anyone who disregarded the court orders would be prosecuted.

The squatters decided to begin their exodus just as powerful support from organized labor was rallied to their cause.

NEW CURRENCY

TOKYO.—Military currency in Japan, Korea and the Ryukyus will go on a dollar and cents basis Sept. 28. Allied headquarters announced that the new currency, which will replace the yen, will be issued in denominations ranging from five cents to \$10 million. The new currency will be issued at 15 cents to the dollar.

GAMBLING SHIP

Is Seized By United States Under Admiralty Laws

LONG BEACH, Calif.—The United States Justice department, taking Tony Corroero Strala's word for it that his gambling ship Bunker Hill is on the high seas, sent some 70 coast guard bluejackets aboard the vessel, and seized it under the admiralty laws.

As the coastguardmen entered the vessel's luxurious casino, roulette wheels stopped spinning, dancing dominoes came to rest and poker hands were discarded. The party was over for some 500 regulars of lady luck, many of whom had spent the night aboard.

United States Attorney James M. Carter said condemnation proceedings would be instituted on grounds that the craft is engaged in operations other than that for which it was licensed—coastwise trade.

PLANNED UPRISING

Three Nationalist Army Generals Were Executed In China

PEIPING.—Three Nationalist army generals were executed in Harbin for attempting to lead a gigantic plot to take control of the city, belated dispatches from official Communist headquarters in Harbin said.

They had planned an armed uprising within the city itself, the dispatch said.

Communist leaders said the revolt was sponsored by Generalsissimo Chiang Kai-Shek and Gen. Tu Li-Ming, commander of the Nationalist forces in Manchuria.

Fragmentary information received here indicated the uprising was scheduled for Aug. 28 but the plot was discovered two days before that. Mass arrests within the 48-hour deadline successfully blocked the plot.

SETS NEW SPEED RECORD—Record-breaking R.A.F. pilot who hit 616 m.p.h. in twin-jet-engined Gloster Meteor, Capt. E. M. Donaldson is shown here with his wife and their 11-month-old son.

POLIO RESEARCH

Would Make Use Of Monkeys To Fight Disease

WASHINGTON.—Plans for the large-scale importation of a particular species of monkeys—described as "the only research tool which offers a reasonable hope of success" in unravelling the mysteries of poliomyelitis—were announced by the national foundation for infantile paralysis.

Dr. H. M. Weaver, acting research director of the foundation, told a press conference that the first step would be a six-month expedition into the jungles of the Netherlands East Indies and the Philippine Islands.

Those places, he said, are the habitat of a monkey known as the "Macaca Cynomolgus" which he declared had shown promise of being science's best bet in the study of polio. He said approximately 5,000 a year are needed to spur infantile research.

A HAPPY PEOPLE

Appeal Is Made To Leave The Eskimos Alone

WINNIPEG.—Bishop Martin, of Saskatchewan, told the Winnipeg Kinsmen club that the "Eskimos are a happy people in their own—In God's name leave them alone."

He appealed to the white man to keep from influencing the northern native Canadians.

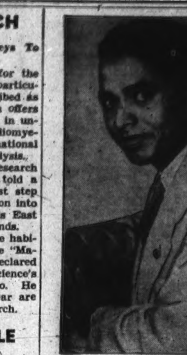

The Anglican bishop said the Eskimos were a happy, hard-working race of people, living off the land and completely independent from the outside world.

ANOTHER EXILE

SOPIA.—Nine-year-old Simeon II, deposed as king of Bulgaria by a plebiscite which turned this country into a republic, left his homeland by train for a life of exile in Egypt.

SETS NEW SPEED RECORD—Record-breaking R.A.F. pilot who hit 616 m.p.h. in twin-jet-engined Gloster Meteor, Capt. E. M. Donaldson is shown here with his wife and their 11-month-old son.

DIG UP \$75 AND GETS 35 CENTS

Gold mining companies in India receive \$75 an ounce for their bullion, but workers only get 35 cents a day and dividends of 125 per cent. may be paid, M. Subramanyam, Hindoo mining engineer, said in Timmins, Ont. He is studying allicosis control by the use of aluminum powder and thinks mines in India will try it.

Elevators In Moose Jaw For Wheat Storage

MOOSE JAW.—W. Ross Thatcher, Moose Jaw member of parliament, attended a meeting of city council and suggested the aldermen should write the wheat board to see if the Canadian government elevators in Moose Jaw could be used for wheat storage.

Mr. Thatcher told council that not a single bushel of wheat is stored at the huge elevator, which has a capacity of 6,000,000 bushels and that eight men have recently been laid off. The staff has now been reduced to 10 men, from a normal operating staff of 20. Capacity staff in peak periods is 60 men.

Mr. Thatcher said that no wheat is stored or cleaned here now as it is all shipped to Port William. He expressed fear that "the elevators may be closed."

Upon motion of Ald. E. J. Hemming, council decided to seek information as to why wheat is not stored at the elevators and to take steps to attempt to again put the elevator in use.

PRELUDE TO VICTORY

DIEPPE, France.—To Terner the Dieppe raid of 1942 "The Prelude to Victory," the Earl of Beesborough, former governor-general of Canada, placed a wreath of poppies on the Canadian war memorial here and addressed a reception in the town hall.

SALMON FISHING

VANCOUVER.—The Vancouver Sun in a newspaper story said that "international efforts to regulate salmon fishing so as to give Canadian and American fishermen this year a 50-50 division of the Great Adams river sockeye run are failing."

Claims Future Of Agriculture Is At Stake

COPENHAGEN.—James Turner, president of the international federation of agricultural producers and of the national farmers union in England and Wales, says the future of agriculture was "at stake" at the food and agricultural organization conference just concluded here.

Main business of the meeting was discussion of plans for a world food board to stabilize farm prices.

The I.F.A.P., formed in London earlier this year, still has to complete its organization and will not seek to advise F.A.O. as a single organization. But six of its seven executive members were present and available for consultation by members of their countries' delegations.

Herbert Hannam of Ottawa, I.F.A.P. third vice-president and president of the Canadian federation of agriculture, was a member of the Canadian delegation.

Mr. Turner said an executive meeting will be held here to choose I.F.A.P.'s meeting place in 1947.

It is understood Canada is asking for the meeting but has competition from several other countries.

Sir John Boyd Orr, F.A.O. director-general, said in his first annual report that the F.A.O. is "completely endorsed the objective of F.A.O.—a world program of production and distribution based on human need—and wholeheartedly Canadian to operate in achieving that objective."

I.F.A.P. now operates as a provisional council of 13 countries, including Canada, and an executive. The provisional organization will continue until May, 1947, when the permanent F.A.P. will be established, with probably 31 countries as members.

STUDENT EXCHANGE

Progress Being Made In Plan Between Canada And Holland

EDMONTON.—Existing friendships between the people of Canada and Holland will be strengthened if the exchange of Dutch and Canadian university students can be arranged. Berend D. Baggens, representative of the university and students' organization, Holland, said in an interview.

Mr. Baggens is one of two medical students from the University of Amsterdam who are touring Canada and the United States in an effort to work out the details of a plan. Under the plan the visiting students will be guests in each other's homes. The only expense to be borne by the student will be the fare to and from Holland to Canada.

Mr. Baggens said that good progress in the plan has been made. Upon his return to Holland next month, the University of Toronto will be used as a Canadian headquarters.

Student difficulties in Holland, he said, was the scarcity of all text books. He stressed that second-hand and discarded Canadian books if collected would alleviate the problem in Holland.

EXTENSIVE DAMAGE

Forest Fires In Far North Have Covered Wide Area

EDMONTON.—Forest fires have caused extensive damage in the far north, due in large part to an extremely dry season, MacKay Melkie, Ottawa, chief inspector of the Northwest Territories and Yukon affairs branch, department of mines and resources, said.

Mr. Melkie has completed an inspection trip which took him as far north as Aklaivik and said the forest fires extend over much of the country between Fort Smith and Aklaivik. Carelessness of prospectors and Indians was believed to be responsible for fires in many cases.

Mr. Melkie said an important development in northern transportation was the opening of an air strip at the Eldorado mine property at Great Bear Lake. Large planes now were able to land on wheels, which meant that the volume of tonnage could be increased.

WHEAT PRICES

The Highest Export Prices Offered For Many Years

WINNIPEG.—The highest export price for Canadian wheat in 26 years was announced by the Canadian wheat board when it increased Durum wheat from 15 to 19 cents over export prices of straight grades.

The board's price list showed No. 1 C.W. amber Durum at \$2.20, No. 2 C.W. at \$2.20, and No. 3 C.W. at \$2.19, all prices basis in store Fort William, Port Arthur and Vancouver.

Export prices of the corresponding straight grades to countries other than the United Kingdom, which is covered by the wheat agreement, are as follows: One Northern, \$2.05; two Northern, \$2.02; three Northern, \$2.00.

Increases announced in the Durum grades were believed to be a reflection of the high premiums asked for American Durum Wheat on the open markets in the United States.

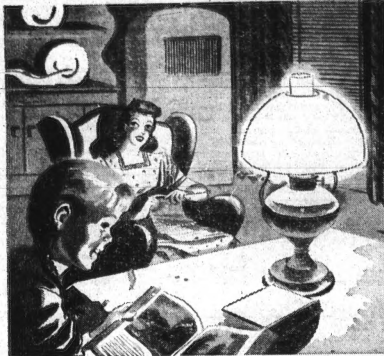

BOYCOTTED BY JEWS—Palestine conference in London was boycotted by Jewish representatives and members of the Arab higher committee of Palestine. Prince Amir Pasha of Saudi Arabia, right, shown with son, Prince Mahomed, seven, was a delegate.

A fellow we know reasons that some girls aren't afraid of mice—others have pretty dogs.

No woman will wear a hat or dress identical to another woman's—but all rules are off about mink coats.

Mr. and Mrs. Fred Basan left Bellevue yesterday to take up residence in Calgary.

Bob Blake has purchased the Gus Howe residence and sold his own home to Alex. Blas.

Mrs. P. Kosarewicz, of Calgary is spending a vacation in town, visiting Mrs. I. Bovic.

Mrs. Alex. McDowell and family are visiting with Mrs. McDowell's father-in-law, Sam McDowell.

Mrs. I. Comfort left on Monday for Creston where she will visit relatives for a few weeks.

Magistrate and Mrs. Fred Andreus have returned from a pleasant holiday at Victoria, BC.

Mr. and Mrs. Ludwig and son have returned home after spending a few days in Taber and Calgary.

FOR ELECTROLUX CLEANER, sales and service, phone 4481, Lethbridge; 1264 3rd Ave. South.

Born to Mr. and Mrs. "Frenchy" Ancil at Germaine's maternity home on Friday, September 27th, a son.

Mr. and Mrs. Joe Wolstenholme, Mrs. Fraser and Mrs. E. Morgan were Lethbridge visitors last week end.

Const. and Mrs. W. A. Shields have returned from their honeymoon, and have taken up residence in Coleman.

Roy Bourne has left for Calgary after spending a short holiday with his parents, Mr. and Mrs. A. Bourne.

Major W. J. Fenny and W/O. Hockvale, of Calgary, visited Blairmore last week in connection with the Army Cadets.

Mr. Thomas Mark, senior, and Mrs. T. Sekina, junior, recently returned from several weeks' visit to Courtenay, BC.

A two-man crew from the department of public works has arrived in Blairmore and are busy putting a new roof on the Court House.

Born to Mr. and Mrs. R. E. Bowen, of Coleman, at the Perry Maternity home in Blairmore, on Wednesday, August 21st, a daughter, Colleen Heather.

Dr. and Mrs. R. C. Duthie had as their week end guests Mrs. L. Morgan, of Blairmore, and Mrs. Arthur Kelly, of Pincher Creek.—Lethbridge Herald.

A letter was received recently by a party in Frank, from Hungary, the envelope being covered with postage stamps to the value of 640 pengos. So much for inflation. Before the war one pengos was worth 20 Canadian cents.

In publishing a couple of weeks ago those comprising the Blairmore teaching staff for this term, we inadvertently overlooked that of Miss Joyce Millett, grades 1, 2, 3 and 4 at the West End school, and Mr. W. G. Moffatt as musical supervisor.

Mrs. R. Large visited her parents, Mr. and Mrs. W. H. Chappell this week enroute to her home in Fernie. Mrs. Large travelled by plane from Vancouver to Lethbridge. She was a recent patient at the Vancouver General hospital and has fully recovered from an arm operation.

A recital by candidates of the Western Board of Music, with a presentation of Awards, is being held in Convocation Hall, Edmonton, on Friday, October 4th, at 8 p.m. It is intended that this shall be an annual affair. On this first occasion Dr. R. Newton, President of the University of Alberta, will preside and present the awards. The recital is open to the public. A similar function, for the Southern part of the province, was held at the Faculty of Education, Institute of Technology, Calgary, on Friday, September 20th.

VILLAGE OF FRANK

NOTICE is hereby given that under the provisions of The Tax Recovery Act, the Village of Frank will offer for sale by public auction, to be held in the Secretary's Office, Frank, Alberta, on Saturday, the 12th day of October, 1946, at 5 o'clock in the afternoon, the following lands:

Lot	Block	Plan
5 to 12	5	2600BD
34	29	2563BS
14	26	3661I
21	28	3661I

Each parcel will be offered for sale, subject to the approval of the Minister of Municipal Affairs, and subject to a reserve bid, and to the reservations contained in the existing certificates of title.

Redemption may be effected by payment of all arrears of taxes and costs at any time prior to the sale.

Dated at Frank, Alberta, 23rd day of September, 1946.

V. J. HOREJSI,
Secretary-Treasurer.

DEMAND MOTOR FUNDS FOR HIGHWAY NEEDS

Renewal of demands that all motor revenues should be earmarked for highway construction and maintenance in this province is planned by the Alberta Motor Association.

A provincial director who returned recently from a visit to Montana reported that the state has 8,000 miles of hard surfaced roads. Of particular interest to Alberta drivers is the fact that in Montana it is necessary to spend all motor revenues on highway improvements and maintenance. The state has to do that in order to qualify for U.S. federal road appropriations.

Officials of the AMA point out that this province with 200,000 more people than Montana undoubtedly could have had several thousand miles of hard surfaced roads now if millions of dollars in motor revenues had been used entirely for highway purposes, instead of being taken into the general fund of the province.

These improvements could have been applied to the entire highway system of the province, giving Alberta better secondary and market roads as well as main highways.

Before the provincial government considers its estimates for 1947, the AMA will make vigorous representations to have all motor revenues set aside specifically for the purpose of building better roads, thus meeting the insistent demands of Alberta citizens and visiting tourists.

Live up to the highest you know and you'll have nothing to live down.

How to tell the sexes apart now that both are wearing pants: The one listening is the man.

Sixty-six muscles are required to produce a frown, and only sixteen to smile—wear a smile and "save the difference."

Mrs. C. J. Bundy, of Cowley, who is visiting eastern Canada, will spend a while with her father, Mr. Graham, in Nova Scotia before returning home.

Word has been received from the board of Public Utilities that request of Bellevue and Hillcrest citizens for a further hearing on the cost of milk will be granted and a date set for the hearing.

Mrs. Geo. Penn, of Frank, is visiting her mother and sister in Montreal at present, and had the pleasure of meeting Misses Catherine and Margaret Patterson as well as visiting Mrs. C. J. Bundy and daughter.

Arriving from overseas on the Aquitania which docked in Halifax Tuesday and expected to reach their homes in the district over the week end are Gnr. J. A. Fry, of Hillcrest and Mrs. C. B. Harner and daughters Janet and Ruth, bound for Blairmore.

"My husband has no bad habits whatever. He never drinks and he spends all his evenings at home."

"Does he smoke?"

"Only in moderation. He likes a good cigar after he has had a good dinner, but I don't suppose he smokes two cigars a month."
